ROSE GROWERS

Route 4, Box 1451

Phone 2076-R

MODESTO, CALIFORNIA

IN PRESENTING this price list, we are glad to announce that in line with our established policy of pricing our high quality rose bushes at the very lowest possible price, we are this year pricing our rose bushes as near as possible to the minimum price required under the NRA. We believe these prices to be the lowest at which high quality rose bushes can be bought, and we wish to emphasize the fact that while the prices are low, the quality is the very highest.

Successful culture of the Rose is dependent upon planting first-class bushes of the right kinds and we wish to call attention to the fact that we are Rose specialists and are giving our full attention to growing high class stock especially grown to meet ordinary garden conditions. While our prices are low, prospective purchasers can be sure that they cannot buy better bushes, no matter how high the price.

We guarantee all our bushes to be true to name and to bloom the first year (excepting the climbers, most of which will not bloom until the second year), and we will gladly replace any that prove otherwise.

Our prices are based on sales made at the nursery; where plants are to be packed for shipment, add five cents for each bush ordered. MAIL ORDERS FOR AMOUNTS LESS THAN ONE DOLLAR POSITIVELY WILL NOT BE ACCEPTED.

Our bushes are all budded on Ragid Robin (Gloire de Rosomanes) (except some of the climbers which are budded on Odorita root) which has proven its adaptability to a wide range of garden conditions. High grade plants carefully handled, insure maximum results when planted in your garden.

Stock will be reserved after February first only when a deposit of 25 per cent is made.

CALIFORNIA SALES TAX $2\frac{1}{2}\%$: Please add this to your order. This does not apply to purchasers outside of the state.

"To dig and delve in nice clean dirt
can do a mortal little hurt;
Who works with roses soon will find
Their fragrance budding in his mind.
And minds that sprout with roses free—
Well, that's the sort of mind for me."

**Nursery located on Florence Avenue.
Take California at the High School, and watch for the
Orange and Blue signs at each turn.**

**WHEN BETTER ROSE BUSHES ARE GROWN,
WE WILL GROW THEM**

All the roses in this list are good for cutting purposes, except Mermaid, that unusually beautiful climber, and Il Zingari, the new flashy colored decorative rose.

WEeping TREE ROSES

This new use of climbing roses is very effective when given the proper setting. Certain types of climbing roses are budded on strong stems at a height of six feet; in time these reach the ground, giving a novel effect that can be had in no other way.

Priced at \$4.50 each, F.O.B. Modesto.

Where necessary to pack for shipment, add 35c extra to cover packing cost.

MERMAID—Single, pale sulphur yellow, amber stamens.

SILVER MOON—White, semi-double.

CECILE BRUNNER—Miniature pink roses.
